

## Some praise for our SURE products

This is the first piece of software which everyone I've shown it to has raved about.

Bob Jackson  
Maths AST Hessle High School

SURE Q ... is impressive in its simplicity and its ability to deliver exactly what it says ... very user-friendly and very relevant, it is well worth the investment.

... It has a really smart user interface and is very easy to use. The question bank is extensive with good quality questions relevant to the syllabus. The model answers are excellent, providing the right amount of detail, and presented with great clarity.

... The answer log provides valuable opportunities for students to learn from mistakes and for teachers' ongoing assessment.

... I think this is an excellent product: it is simple in its presentation and perfect for what it says on the box i.e. 'study and revision'. It is well thought out and has obviously been designed by people with excellent subject knowledge.

... The students' response was very positive. They felt it was extremely easy to use with a clear, no nonsense layout. They commented on the clarity of the model answers and they particularly liked the instant feedback.

Top marks to Counting Thoughts for an excellent resource!

Rob Stephen, teacher, Maths  
Department, Harlaw Academy,  
*SecEd* Review

Having purchased a number of maths software packages over the last few years I can safely say that this is the best that I have seen.

This is excellent stuff to use on an interactive whiteboard!  
Oh yes ... and well done chaps, a really useful product and I hope the world takes notice!

Andy Darvill  
Broadoak Community School

The software is user friendly 99.9%

Nadine Lapskas, Faculty Manager of  
Maths and Computing  
Glenmoor School

The software is straightforward to use, has good graphics and ought to prove useful to any student using it regularly.

*SecEd* Review

I am very impressed by the quality of the questions and the originality of many. Congratulations to you and your team!

Michael Aitchison, Principal Teacher  
of Faculty (Maths/CDT)  
Invergordon Academy

[The pupils] liked the instant feedback and the progress bar. They worked individually and the screen graphics kept their attention. They want to use the software as a regular part of the review sessions that take place.

Wendy Spencer, Maths teacher  
The Wisper School

I liked the look of this VERY much.

Roz Curran, PT Maths  
Kirkwall Grammar School

I downloaded your demo software with a prospect to buy for my mathematics department in which I work, I am very, very impressed by what I have seen.

Daniel Sneddon, Maths Teacher  
Larbert High School

It is clear, easy to use and gives nice feedback. I can't spot many errors - it's clearly been well edited.

Andrew Morton, Head of Biology  
Dollar Academy

The simulation panel is a great idea ... congratulations on a great, value for money product ... it's nice to see such a well thought out product that is not going to break the bank.

Linda Bellwood  
parent of Higher Physics pupil

Congratulations on the customer service. I'm impressed.

Steve Bakke  
Head of Physics  
The Royal High School Edinburgh

The software was helpful in my learning and helped in clarifying my problems. The graphs were nice and clear and easy to read. The equation tool was helpful.
